Please give us your comment	We currently own a property on Hawthorn Road which will be directly impacted by this proposed development. We object to the proposals put forward on the following grounds; - it is not clear how many properties will be built in this relatively small area selected and thus we cannot truly determine the level of impact such as noise - however, it is clear from the plans that any development will cause significant disruption to our lives during the building stages - I work from home, therefore during working hours would be disrupted by noise, traffic and possible outages - it is also highly likely that due to the location of our property we will be overlooked directly by any property / we will overlook other properties being built - it is not clear from the proposals the footprint of the new properties or how high they are to be to distinguish the impact on our right to adequate light into our property

- we have been acutely aware of the ongoing development of flats/houses for the past year across the road from Woking football grounds. This development is a good distance away from our property however the noise and physical vibrations from the works can be felt within our property - this is not a good sign as to how a new development may impact us being essentially built n our back garden
- and lastly, the plans do not show the adequate access routes for plant and eventually the residents of the new development - this is likely to be on a large scale and we are already suffering from poor road conditions including potholes along Hawthorn Road which will deteriorate further
- there is also a concern as to parking arrangements for new residents as most of the Barnsbury estate is suffering from poor parking arrangements

Finally, I find it highly inappropriate that as residents directly impacted by this proposal the council has wholly ignored the need to inform us of this consultation and it is pure chance that we are now aware. I feel this is very poor behaviour and entirely unprofessional.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)
