Subject: Green Belt

Dear Douglas,

This comment may indeed be drowned out by others but I would appreciate it if you forward it to the appropriate WBC officer :

1. I support maintenance of the Green Belt for as long as possible;
2. However both nationally and locally we vitally need more houses, and therefore I understand, and support, proposals to release Green Belt when necessary;
3. I support the proposals in Pyrford that are in the consultation document and also Egley Road. Others I have less detailed knowledge of;
4. I suggest that residents' concerns might, slightly, be eased if they had a full reassurance that adequate services such as school places and medical facilities will be in place;
5. With an aging population we should seek housing to give the option of older people to move out of big family houses into more appropriately sized property.

Good luck.

Regards Peter Ankers
