Hello there,

I find it difficult to navigate this site: www.woking2027.info/allocations/
As I live off Goldsworth Rd., I was interested to see the Development Plans for this area. On the interactive map I've identified the site UA11 which roughly corresponds to the site of the derelict pub at the Morrisons roundabout. Now, I would be interested to find out about its Development Plan, but couldn't find my way to it.

Also in Goldsworth Rd. on the site of the previous petrol station, there's a construction of a residential building which nears completion. My concern is that the building is too close to the busy road which would create a noise nuisance. I have been inconvenienced by the night-time noise in Mabel St. for years and know how unpleasant that is. The site would probably be more suitable for a car park or another public utility rather than a residential property. In any case it is too late now to deplore this unfortunate development. I can only hope the site of the pub will not be developed into yet more flats!

Best regards,
Halina Arendt
