Subject: Proposed Housing Developments -- Objections

Dear Ms Jackson

Having been made aware of future planned developments by Pyrford Neighbourhood Forum, I would like to express my concern about the impact of higher traffic levels on Upshot Lane/Coldharbour Road/Oakcroft Road and Pyrford Common Road, as well as the Old Woking Road, of the proposed housing development of the two Pyrford fields on either side of Upshot Lane. This could cause an unacceptably high level of traffic during rush hours.

Also, I have seen the Octagon proposals for the development of the Broadoaks site, which I regard as very suitable and sympathetic with the surroundings, but again I am concerned about the increased traffic levels on the Parvis Road, which already gets very congested during rush hours. And the proposed even bigger development on the West Hall site, which probably in itself is a good thing, would lead to an even more unacceptable traffic level, unless some radical ways of alleviating it are found. As there does not seem to be any scope for widening Parvis Road, I wonder if there are any alternative routes in, which could be developed (even if these involved building a bridge over the canal and M25)?

I hope these comments can be taken into consideration in any future planning.

Yours sincerely

Brian Blair
