To whom it may concern;

I just wanted to lodge a short email notifying my objection to the release of Green Belt land in the Byfleet and West Byfleet area.

What is left of our Green Belt land should be preserved , there is other land available. This would remove most of our local Green Belt while Woking still has 98% of its Green Belt!

The Parvis Road is already frequently gridlocked so can not support the new development.

Much of the proposed area has already flooded or is in danger of flooding.

The Byfleet petition which was signed by 2,500 people seems so far to have been ignored.

Please add my objection to the others for reconsideration of keeping our Green Belt land.

Thanks and kind regards

Rebecca Blair
