I would like to add my support for the allocation of this site, for the period 2022-2027.%0AI would like to add further that I believe earlier release is possible with the planning of a new secondary school and leisure facilities%0Aplanned for opening September 2017.%0APlanning should be identified not only for housing but also for Care Homes and a Hotel which would service the needs of the school and leisure facilities.%0AThis would increase local employment and economy.%0AI think the Council should allowing earlier development under special circumstances because this site can supply indicated numbers requirement by the council to %0Afulfil outstanding commitments.%0A
