Your views on the Site Allocations document

This section is for providing comments regarding the Draft Site Allocations DPD. Please provide as much detail as possible, for example the page or paragraph numbers to which your comment relates and explain any changes you consider should be made to the document.

This section can also be used to suggest a new potential development site to the Council (please state the full site address and contact details for the landowner(s) in your comments).

Site allocations	Site GB13 Land E of Upshot Lane Pyrford

Please give us your comment	This is a highly sensitive site because of the landscape features- even the consultants did not recommend releasing this land. The site scores in the SA negatively against the accessibility to services and facilities. The site scores negatively against conservation of biodiversity and double negatively against landscape and heritage impact. The council's own SHLAA accepts its evidence base- 'does not identify this site as having and potential to be removed from the Green Belt for residential development. The interim SA fails to assess the extent of high grade agricultural soil, with a consequential lack of planning judgement being exercised in this important policy objective. Therefore, as the site falls within the context of Parcel 9 (which the council's single evidence base document specifically recommends is NOT released from the green belt), it is an unsound site for residential development.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to

the site boundary)

Site GB12 R/o 79-95 Lovelace Drive Pyrford

Objecting

The site forms part of a lovely rural corridor down to the River Wey. The scale of highway works to Pyrford Common Road and Upshot Lane junction will be very significant and hence will alter the setting of these two roads. The interim SA fails to assess the extent of the high grade agricultural soil and the NPPF places great weight on high grade agricultural land. The site falls within Parcel 9 and the consultant's report identifies it performs strongly against the green belt functions and should not be released irrespective of its availability.

you consider should be made (for example, to the text, to the site boundary)

Sustainability Appraisal Report

Sustainability Appraisal has been undertaken to consider the likely significant effects that the draft Site Allocations development plan document (DPD) might have on the Borough in environmental, economic and social terms.

Objecting

The council has omitted to appraise a clear alternative and has not been consistent. I am of the view that the following site is also capable of meeting the identified objectives of the Borough in its core strategy and should be assessed as a potential safeguarded site: Land to the east of the A320, Horsell East and Woodham (subject to the grant of now revoked planning permission PLAN /2011/0823.
