We are very much against the proposal for new houses on greenbelt land in Byfleet, to add more houses to the area would make it most difficult to make a journey in the Woking or Cobham direction. At present it can take a long time just to get out of Byfleet at certain times of the day due to heavy traffic, therefore to add to this would be very unwelcome.

As we have very little Greenbelt to enjoy in this area as it is, to encroach on this would be most unfair, especially as Woking have 98% of their Greenbelt preserved!
