Dear Jeni Jackson

30/7/15

I am writing to you to register my objection to the proposed development either side of Upshot Lane in Pyrford. When we moved to Pyrford 10 years ago one of the things that attracted us was that it was a village in a rural setting. I think this development puts that at risk and will make Pyrford merely an outer suburb of Woking. I also object on the grounds of the road infrastructure not being good enough to accept the increase in traffic. I also regularly run along the Sandy Lane path between the fields. This rural setting will be destroyed if one side is built over. I do realise that houses have to be built somewhere, but they should be on brownfield sites, or at the very least on waste land, not on agricultural land that is in regular and productive use.

Yours sincerely

Colin Boxer
