Dear Ms Jackson

**Re: Pyrford area - Green Belt Proposal to build**

I am writing to object to the proposed building on the above site for 223 dwellings.

I have lived in Pyrford for 5 years and one of the reasons for moving into this area was the proximity to the countryside and that Pyrford felt like a village. I feel that the proposal to building on these sites would be detrimental to the inhabitants who live in the area for the following reasons:

- Increase road traffic substantially in an area that already has quite a lot, particularly around the primary school.
- Increase the danger of accidents as commuters drive through Pyrford to Woking and West Byfleets stations and towns.
- Change the village feel of Pyrford.
- Place increased burden on the local services such as doctor's surgeries already under increased pressure.

I do not think the sites proposed are suitable and would ask the Council to reject the proposal to build.

Yours sincerely

Susan Byrne
