**Subject:** Objection to 400+ new houses in Pyrford

My family's reason for making our home in Pyrford was its rural atmosphere and individual character. If two fields of Green Belt land are commandeered on either side of Upshot Lane and 400+ houses built there, Pyrford will lose its village status and become just another urban sprawl.

Practically speaking, our roads, many of them narrow and hedge-bordered - all of them already crumbling, will not stand up to the additional daily onslaught of the 800 extra cars which will surely take up residence as well as the 1000+ extra people. No doubt our treasured hedges will be bulldozed to make maximum space. Local traffic will be at a standstill.

I understand that one of the fields was considered unsuitable for such development by even the council's own planning consultants, PBA, in the 2014 Green Belt Review so it must be resisted at all cost. Please do not condemn us to living in a never-ending traffic jam.
