To: Planning Policy

Dear Sir,

We wish to comment and object most strongly to the above development.

Our objections are that the GREEN BELT should be preserved as promised by our present Government. Any development on GREEN BELT cannot be reversed and will be lost forever.

More specifically development on this site will generate noise pollution, car pollution and horrendous traffic congestion, the A320 is already very busy.

Why are Brownfield sites not being used and there are many properties that are past their best and should be demolished and redeveloped up to a modern design, construction and more energy efficient.

I trust that this will be considered very carefully and that this site will remain in the GREEN BELT.

Yours faithfully

David and Jill Drinkwater (address: 13 Hillside, Off Egley Road, Woking, Surrey GU22 0NF)
