

Byfleet Green Belt Release

Tara Drummond-Finnis [REDACTED]

To: Planning Policy

Dear Sirs

I write as a resident of Byfleet village to register my deepest concern at the prospect of the destruction of Byfleet, Pyford, and West Byfleet.

If the plans for the proposed housing development are approved, it will totally destroy the whole area, and place strains on the already limited infrastructure.

It is essential to save the green belt, it is a good reason that a number of the residents chose to invest in this area. If the development is approved, it will turn the area into another gridlocked housing estate, property values will dive, and no doubt crime will rise. This is an area that has the appeal of village life, and there are reasonable schools of small sizes. The proposal is not one that any resident I have spoken to welcomes.

There are other options, this proposal needs to be stopped, it is total madness to build on land that has been flooded, and in areas that clearly can not support the volume of traffic and pollution this would create.

I urge the people in authority to consider the people who live here now. There are areas of Woking that are crying out for redevelopment, that makes a better investment solution for developers. Please, please do not build here.

Yours sincerely

Tara Drummond-Finnis
