Overview of Site allocation Proposal Sites  
Supporting

The human right to shelter is a basic and vital right that all people require and deserve. The availability of housing in South East England is severely limited. This means that what housing is available is very expensive to buy or rent. The situation is so serious that Britain fails to provide the human right to shelter in many cases and is at risk of failing to provide this right in many more cases. The people of Woking and Woking Borough Council cannot on our own solve the problem above. But we can provide part of the solution. The solution is for Britain to build more than 3 million new homes and for Woking in particular to build 5000 new homes. The Draft Site Allocations Development Plan Document is excellent. My view is that it should be implemented in full.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

## General comment or suggest a new site

This section is for general comment not covered by the previous pages.

Any other comments

The Draft Site Allocations Development Plan Document is excellent. Key benefits are the increased supply in affordable and general residential housing. These are desperately needed due to the very high costs of renting or buying a home in Woking.

My view is that the Draft Site Allocations Development Plan Document should be implemented in full without delay.
