> We would like to strongly complain about the plan to build new housing in the fields adjoining Upshott lane. We have lived in Pyrford for over 20 years and have brought up two children who attended the local primary school and have over time made good use of the local facilities. In this time we have already seen a big increase in the traffic and strain on the local infrastructure . Already Coldharbour Lane is almost impossible to travel along at school pick up time and the congestion is dangerous for all the community, but particularly the young children.

>

> People move to Pyrford for its country village feel and it is not appropriate to remove fields from the green belt and pack it with high density housing. As parents of young people we do understand the need for affordable housing in the Borough for locals, but this development is more likely to bring in people from outside the area and is not appropriate development in an area with poor transport links and existing issues with congestion.
