16.7.2015,

Ms Jeni Jackson,
My wife and I have just been informed of the destruction of our village, by the addition of 400 Houses. Not only our village, but the added destruction of our local Green Belt.

What is the point of having Green Belt if at the whim of some politicians an area can be covered by concrete, possibly to make somebody a vast profit.

As you can probably guess, my wife and I are 100% against the proposed catastrophe,

yours
disappointed
