1 Lees Farm Cottages

Pyrford Road

GU22 8UE

We are opposed to the release of two large valuable agricultural fields in the green belt either side of Upshot Lane Pyrford for Housing Development. These fields are being farmed to this day. We should be looking to the future in self sufficiency, we can not always rely on the rest of the world for our food.

The infrastructure in and around Pyrford area is close to breaking point, flooding is also becoming a huge problem, drainage ditches are blocked and unkempt. Schools are already overcrowded, traffic in gridlock at times. This plus the plans to build on other green belt sites in West Byfleet and Byfleet will add greatly to congestion and pollution in our area.
