Objecting

I would like my objections noted for the proposed development surrounding Byfleet on what is currently green belt, in particular Sites GB4, GB5, GB16.

Firstly it should not be developed as it is green belt and is important to the the local wildlife and residents as an area of green space.

The other issue I have is that Byfleet can not cope with the amount of traffic that runs through it at peak times so the the addition of large vehicles during construction and themn hundreds of additional residents travelling to and from their homes is going to cause an already overloaded road to grind to a halt.

If the worst happens and the development takes place Woking council need to ensure that the road system is also improved to handle the additional traffic - A245 Parvis Road.

Also we have a lack of health services and school places in the village of Byfleet so again this will need to be addressed if these plans go ahead.

There is the issue of flooding in the village and building on the surrounding areas will only worsen the potential for flooding to Byfleet.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

Do not develop green belt around Byfleet. Improve the A245 to handle the traffic through Byfleet. Provide more health services and additional school places.
