

Objection to development of green belt

Mary Emery [REDACTED]

To: Planning Policy

Please accept this as my objection to the release of Green Belt land set for Byfleet, West Byfleet and Pyrford areas. I am a Byfleet resident and the current infrastructure is insufficient to support additional residents; the A245 between the villages is already extremely busy and heavily congested during rush hour. The building of further houses will result in increased traffic gridlock and pollution to these areas. Notwithstanding the insufficient infrastructure in place for the current residents, flooding is also a significant issue; the area was affected badly during Winter 2013
