Dear Ms Jackson,

I have been out of the country for the last 6 weeks and have just heard of the proposed use of Green Belt/farm land in Pyrford for housing. I always thought that the introduction of Green Belt introduced by the government of the day many years ago, meant just to prevent the proposals your committee proposees. By what authority can Woking B.C. do this?

I moved to Pyrford just 50 years ago, my son went to Q.E.11 a local modern school (since demolished for housing), health services were fine, access to London by rail or road were good and the area had a pleasant 'village atmosphere.) Things have changed since then particually on the roads and your proposals are ~~not~~ going to make things much worse..

I am not going to repeat all the obvious problems that I am sure have already been raised by other residents to this development in Pyrford and surrounding areas - I will just register my strong objections.

Yours faithfully

Brian Farrow.
