Re Green belt release

I am writing to you to present my objections to proposed development in Byfleet and west Byfleet.

My objections are

Risk of flooding Byfleet being flat and high risk

Traffic congestion on Parvis Road. At times have been unable to get out of village due to heavy traffic this will get worse

Lack of infrastructure for drains roads health and education. Large redevelopment of Sheerwater will put strain on health centre without addition of further properties on green belt.

Woking QEII school as closed due to predicted falling birth rate. Now schools are struggling to offer places.

Green belt should be preserved.

Why is infant school in Byfleet still empty and left to ruin?

Mrs B finn
