Both myself and my husband own our own property at 3 Devonshire Avenue, Sheerwater, Woking, Surrey GU21 5QW. We have lived here for over 25 years. Our concerns over the prospect of a Regeneration to our property (home) and the rest of Sheerwater is not only very upsetting but also very concerning. For us to have to give our home up where we are very happy, for whatever the Woking Borough Council feel they can offer would never replace what we have right now. Why ? does it have to come to a Regeneration, or should I say a total destruction to peoples homes, and a decent Housing Estate. When really all it needs is work done on the existing flats and other areas i.e. shops, garages to make it look more presentable. I would never say Sheerwater has gone down enough for it to be named as a deteriorated Estate. We have everything we want on the Estate, Doctors, Dentist, Schools local bus route and in easy reach to Woking and train stations. We can also enjoy walking in the lovely green areas like the canal path, playing fields etc. Why should we have to give all this up ?
