Dear Sir / Madam,

We are writing to object very strongly to proposals to release 2 fields on Upshot Lane from green belt land for housing development. Such a development would destroy the natural and unique historical heritage and beauty of the area and would without doubt place unacceptable pressures on the local infrastructure. We have read the Pyrford Neighbourhood Forum's documentation on the proposals and fully support them.

We urge you strongly to reject these proposals and applications.

Yours sincerely

Dr David George
