Please give us your comment	I am objecting to the proposal to build houses on green belt land in the vicinity of Parvis Road. Traffic is already at a premium and there is very little that is semi rural left in Woking. If the council builds the amount of houses proposed in this idyllic location (The Stables) the ecosystem will be affected.Wildlife is already at risk with habitats reduced. Green belt land should be protected for future generations.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

Green belt land should be protected not only for the health of people living in the Borough but for the protection of wildlife. Reducing habitats is endangering species and will ultimately affect us in the long run.

Proposed modifications - please explain what changes you consider should be made, if any

Habitat Regulations Assessment (HRA)

A Habitat Regulations Assessment (HRA) was undertaken to consider the likely significant effects that the draft Site Allocations development plan document (DPD) might have on European designated habitats

Please give us your comments

I believe reducing and building on green belt land, will endanger species of wildlife already becoming extinct due to loss of habitat. Buildings proposed near The Stables, Parvis Road will not only destroy a semi rural location but will also destroy land inhabited by many creatures in the ecosystem.

Proposed modifications - please explain what changes you consider should be made, if any

General comment or suggest a new site

This section is for general comment not covered by the previous pages.

Any other comments

I am very concerned that Woking Borough Council is considering building on green belt land. I have always understood this was protected land but obviously not. If green belt land is eroded future generations will not only have their health affected by the loss of green space but the ecosystem which we rely on for our food etc will be seriously affected with dire consequences.
