Dear Mrs Jackson, we are writing to express our deep concern over all the proposed plans of Woking Council for extensive building in and around the village of Mayford. And also regarding the new school in Egley road where the proposed sports and leisure facilities seem to be greatly in excess of school needs.

While we realize and accept the need for some sports facilities and also the need for future housing, the whole area already has to cope with the Moor Lane development, and that of Westfield avenue- with the traffic that will produce and so many more homes and the sports facilities will stretch our already very over crowded roads to breaking point.

there are not enough shops, doctors surgeries schools etc to cope with this influx of people and all these future plans on the proposed scale seem to be designed to create a suburb south of Woking totally gridlocked from dawn to dusk and beyond with traffic, stress, NOISE and frustration and devoid of green space.

yours sincerely Ray and Sue Grimmer
