Subject: 400+ new houses for Pyrford

I wish to object to the proposed building of over 400 new houses on two Pyrford fields which are at present green belt.

I have been a resident in this area for over 20 years and the proposed development will blight what is at present a pleasant village community. Furthermore the present road system will not be suitable for what will no doubt create at least 400 new cars and the impact of such a large number of vehicles will not only spoil the what village life we have, but will create possible problems with speeding cars were there are children crossing roads especially as most vehicles will have to drive through the village and past the school. There are already problems with parked cars outside both the school and church which cause traffic hold-ups daily, and the situation will only get worse if the proposed planning goes ahead.
