Subject: Objections to planning on Upshott Lane Pyford

Dear Jeni

I am writing to you to object to the Upshott lane proposed planning of the GREEN BELT area.

Firstly what is the point of having Green Belt Covered areas of our land if councils can override the protection that this Title is meant to give it.

I live on Coldharbour Rd KT146JL. I moved here in July 2013 as this was such an area of beauty. I love the country side at the end of my Road, which is where this travesty is proposed. I will stand up to any developers with whatever force it will take to STOP this development which will bring ruin to this countryside.

Why doesn't the council rebuild areas that are in need of redevelopment . Buildings that currently exist and just need to be pulled down. There are hundreds of them everywhere.

If properties do not exist-in an area, then people simply just cannot live here. And people will go elsewhere.

I could go on and on. But I know that very probably this will not be read by anyone that has any Passion for its protection. And it is merely a number of objections that need to be registered.

I do hope that the council will stop this planning before there is a public demonstration and outcry.

Yours sincerely

Mrs D Haslam
