Site allocations Would you like to Please give us your comment	Site GB16 Broadoaks West Byfleet Objecting Development of this size and scope is totally unsustainable given current utilities and road infrastructure. far too large and out of all proportion with the character of the existing village. Roads here are already a nightmare without adding this volume of potential traffic to it.

Site allocations Would you like to Please give us your comment	Site GB15 Land surrounding West Hall West Byfleet Objecting Such a vast project however far into the future is completely unsustainable give the road structure in the area and other amenities. Existing roads in West Byfleet are made impassible now by school and commuter traffic - adding a school of this size onto main road given that

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

parents always drive children to school no matter how close that they live is not sensible. Existing businesses will be brought to a standstill to the detriment of the villages on either side of the development
Remove the school to a more suitable location that will not disrupt the flow of traffic. Limit the housing development to 25% of the proposal so that the local communities stands some chance of surviving and integrating the population within village life and character

A combination of these
While I realise the need for this proposal to enlarge the school I am not satisfied that the issue of increased traffic flow has in any way been addressed.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

this proposal should not go ahead unless there is some planned proposals included from the outset to handle such a large increase in traffic along Camphill Road and all other associated roads that access the school.
