Your views on the Site Allocations document

This section is for providing comments regarding the Draft Site Allocations DPD. Please provide as much detail as possible, for example the page or paragraph numbers to which your comment relates and explain any changes you consider should be made to the document.

This section can also be used to suggest a new potential development site to the Council (please state the full site address and contact details for the landowner(s) in your comments).

Site allocations	Site UA1 Library Byfleet
Would you like to	A combination of these
Please give us your comment	While I understand that the current library is old and there is scope for redevelopment of the site, I feel that the centre of Byfleet village has become overcrowded with housing in recent years, particularly with the large number of flats/retirement properties/assisted living facilities. This has had a negative impact on traffic and parking in the village, and the area around the library is particularly bad, partly due to cars from a local taxi firm parking on the side roads and pavements.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)	Any development would need to include significant improvements in terms of road infrastructure. There should also be provision for a temporary library facility during the duration of the works

Byfleet and the surrounding area. However, traffic is already an issue on the Parvis Road, and there is pressure on local school places.

For all the developments in Byfleet and along the Parvis Road, there needs to be attention paid to infrastructure, including a new primary school, and improved access from Byfleet to West Byfleet (possibly developing Murray's Lane to provide access from this site to site GB16?)

General comment or suggest a new site

This section is for general comment not covered by the previous pages.

Any other comments

I support the development of Green Belt land in Byfleet and West Byfleet, as there is a need for more affordable housing in this area, and the land is currently not used for leisure purposes. However, I think that serious consideration needs to be given to infrastructure, particularly traffic along the Parvis Road, and primary school places. The number of new houses in this area is going to require a new primary school, which does not appear to be included in the current proposals.
