**Subject:** Housing Plans for Pyrford

Dear Ms Jackson,

Principal points AGAINST the plan for 400+ new homes for Pyrford

The loss of green-belt land.

Inevitable change in present village atmosphere.

Inevitable increase in road traffic levels.

Inevitable extension and widening of existing road systems.

Inevitable increase in public transport systems.

Inevitable loss of existing ancient hedgerows and pathways.

Inevitable stress on existing resources, schools, medical centre, shopping facilities.

What is the present decision on the development of Wisley Airfield? An area relatively remote from existing housing.
