To whom it may concern,

I write to object to the proposed desecration of the green belt land in Byfleet Village,

Not only to object but to remind you of the issues which will present themselves during and after the building.

1, The A245 Parvis road will be gridlocked and to get in and out of Byfleet Village will be a nightmare.

2, The drainage in the area is already inadequate, as Brewery lane constantly floods in bad weather, nothing has been done to rectify this in the 30 years I have been a resident.

You want to build houses in Byfleet yet you have not dealt with the issues already in the Village, we are surrounded by undesirables and the parking is atrocious to the point of causing arguments within the community.

3, Much of Byfleet and the proposed area has flooded in the past or is in danger of flooding, new estates will cause greater risk of flooding.

4, This will remove most of our local green belt while leaving Woking green belt preserved.

5, We must preserve our green belt , there is other land available.

6, The petition with over 2,500 names has been ignored .

7, There are many office sites in the area which are unused and offices areas remain vacant and have done for many years, why are you not building on these sites to preserve green belt.

8, Why a private school, we need to cater for the less well off in the area not the wealthy,

9, The council has always dumped on the people of Byfleet, by depositing drug addicts and benefit cheats in the village in particular Eden grove road.
