Dear Sir/Madam,

We would like to express our rejection and worry to any proposed Site Allocation Development plans using the Green Belt in Byfleet or indeed West Byfleet.

It seems the whole issue has been "hushed" away almost hoping that nobody notices such plans fully knowing that most people living in the area would oppose them. Green Belt was created around Greater London for reasons, and it seems that all these reasons have been forgotten and/or ignored.

No council should propose increasing the housing using Green Belt, in particular the area in question is already suffering with heavy traffic during rush hour extending to most days for 2 hours in the morning and 2 hours in the afternoon. Furthermore, any problems on M25 create huge traffic chaos, and these incidents are rather more regular than occasional.

Surely an issue like this should be properly investigated by an independent company taking into consideration all the implications that the extra housing would create for traffic, schooling, healthcare and of course the flood plain.

Byfleet Village has in the past years suffered with flooding and adding extra housing would increase possibility of any further flooding.

We look forward to hearing your comments on the above.

Yours faithfully

Tuula and Robert Kaminarides
