Subject: Proposed building of houses in Upshott Lane, Pyrford

Re Proposed building in Upshott Lane

Whilst you will have heard all the arguments relating to this proposed development may I ask you to pause for a moment and think hard about the effect this development would have on the village of Pyrford.

This community is unusual .It is diverse in social backgrounds, ages and has a very strong support mechanism, built up over many years. Many people have retired and moved away from Pyrford. Many have attempted to move back as the retirement `dream `was not as good as they thought and they missed the bond that Pyrford brings.

Adding another 400 plus houses will change the nature of this village, FOR EVER.

The other unberable effects would be a horrendous increase in traffic, 400 houses could equal an extra 800 cars, travelling along roads which are already very congested during critical school times, as well as a lack of school provision and infrastructure such as GP` s.

These decisions are not just about finding plots of land on which to build. They impact on the future for our children and future generations.

For those of you who bear the responsibility of making these planning decisions I ask you to think very carefully. We have other pockets of land in the borough which would be able to take the additions of a few houses without affecting the area in such an irrevocable way.

Sincerely

Madeleine Key (Mrs) RGN
