Woking Borough Council
Planning Department.

Dear Sirs,

Your proposals for ruining our environment.

Many years ago this town of Woking was described as a charming railway town surrounded by a number of villages - each in verdant surroundings etc. ... I could go on but basically the road system will not cope as we have gridlock already. The environment has suffered enormously, Now you propose taking more green belt for heavily to be built upon. What about serious flooding? I am deeply disappointed in the

Council's proposals and general outlook
for the future. Shame on you,
yours faithfully.

J KIRWAN.
