

## **Green belt release in Byfleet.**

**To:** Planning Policy

Dear Sir/Madam.

I am writing to inform you of my strong opposition to any proposed future development in the Byfleet area.

I have lived in Byfleet for nearly 30 years and have seen many changes, most especially in just how busy it has become with the sheer number of people that are in the area.

The roads around the village are chock a block with cars as it is and the parking situation around the back roads being atrocious, with people parking indiscriminately all over the grass verges, where is totally illegal, and causing deep muddy ruts, which are dangerous and unsightly.

This has been getting steadily worse over the years, but has now reached a crisis point.

Why this situation cannot be monitored, and offending vehicles fined, I do not know.

At certain times of the day it is nigh on impossible to leave the village in all directions as the traffic is so bad.

The extra housing and subsequent proposed new school traffic would create an unprecedented grid lock.

I totally fail to see how this has not been realised by planners.

I am saddened that we will potentially lose even more green space around the local area, which would then turn it into just another built up suburb as opposed to the village it once was.

At the moment, when we flood in Byfleet, we have grown to know whereabouts it will happen, but all this reclamation of green space to hard concrete will no doubt divert water elsewhere, to existing older properties not built out of the flood plain.

I will now be devoting much of my time in the future to this ridiculous proposed project, and can assure you I will oppose most vehemently against it in any form.

I would be most grateful if you would be kind enough to keep me updated of any developments.

Kind regards.

Gary Lowe
