I would like to object to all this development there is not enough doctors dentist etc to take any more patience we wait to long as it is for appointments . The road will be gridlocked is there any plans to have another doctors surgery on the development will there be more bus routes say buses to Kingston and Guildford I hear they are cutting bus routes again surely more buses will keep cars off the roads the area will a nightmare too many people in a small area why not build a self contained mini village on the site not just lots of houses so the council can just collect more taxes .
