

West Byfleet / Green Belt feedback

To: Planning Policy

Dear Sir/Madam,

I telephoned earlier in the week but received no reply. In any case, I am a resident of Flat 4 13 Parvis Road, West Byfleet, KT14 6LS and wish to go on record that I am horrified at your future plans to build 592 dwellings and as well as more in Byfleet - all who will use Parvis Road. You cannot cross the street now or pull out of the drive way as there is so much traffic (including weekends), not to mention the constant noise (you have to keep the windows closed to hear) inside!

I moved to a village to enjoy a quieter lifestyle near the green belt and am completely against your plans to use that natural space. It will change the village.

I question the competence and professional training of your staff who think that this will not greatly impact the area and its already congested roads; first expand all roading.

I am not against more housing. I suggest you think further how you can equally distribute the dwellings, 20-50 there, 30-60 there, etc but not hundreds in any one place at once. It's just nuts and our towns are being ruined.

Sincerely,

William Menzel
