How can we trust our local Council  
who now plan to build on land  
which produces food and is Green Belt?

There is a heavy amount of traffic  
passing through this area every day  
and no more can be added.

The pollution levels would rise and,  
what is at present a pleasant area  
to live would become over populated.

The best byfleet shopping has just  
sufficient parking.

Personally I struggle to keep my  
garden for wildlife which is essential  
for the lives of all of us.

When wild life stops - humans also  
cannot survive.
