Building in excess of 700 dwellings and a school between Byfleet and West Byfleet to the south of the A245 will destroy the natural green wildlife friendly open environment between the two villages taking urban sprawl to another level.3. The intended number of dwellings and a school will bring hundreds of additional vehicle journeys and pollution to an already congested A245. Unfortunately the A245 is the only route East - West through this part of the borough.4. The present infrastructure is already struggling as local residents can confirm, improvements to Mains water (already in short supply in the South East), Drainage and Electricity Supply do not seem to have been mentioned in the proposal documentation.5. Flooding in the South West area of the M25 is

becoming more common year on year, concreting over even more precious green areas is turning a blind eye to the natural environment.

1. I suggest the large number of golf courses in the Woking borough should be considered for housing. They are the preserve of a minority of the populace and are huge areas of under utilized and "over processed" land which parts of could be developed with minimal impact on the majority of the local population.

General comment or suggest a new site

This section is for general comment not covered by the previous pages.

Any other comments

1. It is unfortunate that developers eventually become involved in the planning and decision making process. They have little interest in local sensitivities only the ease in which they can build as many houses as possible at minimum cost for maximum profit.
2. From the Site Allocations DPD it is difficult to see an equitable distribution of proposed development sites throughout the borough. The proposal for the Byfleet area appears to target the majority of Byfleets Green Belt, where other areas in the borough appear to be relatively untouched. This appears unfair and undemocratic ?
