Dear Woking Planners

I object to the plans for building 400+ houses in Pyrford on green belt land as the village is already congested with traffic the infrastructure cannot take on more people. Traffic is going to become even more congested than it is already and will add to journeys and also increase likelihood of accidents. There is not enough room within the local schools.

See below some other reasons why you cannot approve building houses on green belt land within Pyrford.

A. Pyrford Primary School is about to be re-built ( 50 year lifespan expected ) and the number of pupils will slightly increase to meet current demand. 433 new houses will throw up a massive need for school places possibly in 2030.

B. Elderly Care Facilities are needed

C. Nursery and Pre School facilities are at capacity at present

D. Our Village is a community where people want to live and much of this revolves about the pleasant environment. Safety is of paramount importance and the character of the village and its wide blend of facilities is something which once destroyed cannot readily be re-created.

E. It would be unrealistic if we were not to concede that some change and development must

I await your response

Regards,

Robert Munford
