Dear Sir,

**Woking Core Strategy
Woking 2027.info**

We understand that you plan to release all the Green Belt Land on the North side of Saunders Lane and also land adjoining Egley Road for high density development.

This proposal has gone further than required by the Strategy and the objections to the excessive housing densities, the congestion of the local transport infrastructure and the resulting urban sprawl - when previous policy has been to maintain open spaces between the villages - have been well rehearsed.

While not wishing to demonstrate a "nimby" attitude to any necessary development in the area, we hope that it will be possible to retain at least some element of England's "Green & Pleasant Land" in the area of Woking in which we have lived happily for forty years.

We should be grateful if you would register our objections to these present planning proposals.
