Do NOT Build on Byfleets Green Belt !

Byfleet village and surrounding area will be gridlocked – Parvis Road A245 will be unusable

Green Belt must be preserved – there is other land available

Current infrastructure provision (doctors, education etc) is inadequate already and must be rectified before any development

Much of the proposed areas in Byfleet has been subject to flooding recently or is now in danger of flooding

This would remove most of our local Green Belt while 98% of Wokings green belt is preserved – HOW COME ?

The petition signed by Byfleet residents has been ignored

Kevin Parslow (Byfleet Resident)
