

Mrs Jean Ethel Pearce.

17 Ridge Close

Hook Hill Lane

GU22 0PU

I am writing regarding the proposed development of Green Belt especially the Mayford area.

Already there is much congestion we do not need more traffic and the bridge in Hook Hill Lane is narrow, and even though there are lights and a 30ml limit there are many times that people do not adhere to this and go faster. Its dangerous to have at times and increase traffic through St Johns is not needed.

Also what facilities are there for Medical Centre, Schools etc to accommodate so many new properties.

People travelling from Worplesdon Station to London would mean more car parking space.

Who are all these homes catering for not the local people.

It's a crime to destroy the Green Belt for more houses which means at least 2 cars per house amounting to more gridlock on roads to Guildford and Woking, plus all side roads gridlocked.

Its time some common sense was used to stop this desecration of what we have left of our Green Belt here.
