

Hi Woking Council.

My name is Jessie, I just wanted to say that I heard you are planning to chop Mayford's green belt.
Well all of the Mayford residents including me say no!

The green belt is part of the Mayford residents lives, some of these people have dogs to take for walks, some children who explore and experience a world. The green belt should never be gone forever!

Mostly, you should not cut it because I was studying deforestation and that is not environmental and could kill people (well maybe) The trees make my life such a wonderful place to live with a great atmosphere. The Mayford residents and me stand for the belt, we want to protect it and use it for our future.

I hope you enjoyed my letter and realised that you should not cut down Mayford's green belt.
