Dear,

As Byfleet resident its been brought to my attention, information about Woking Council's "Site Allocations DPD" includes the release of Green Belt land. The plans propose over 1400 extra houses to be built in this area.

Please see below my comments/objections:

- The Green Belt should be preserved, there is other land available
- The Parvis Road (A245) will become unusable and Byfleet will be complete nightmare to get through...already now we face massive congestions on a daily basis
- The current infrastructure provision (for drains, roads) must be rectified before any developments
- Much of Byfleet area is in danger of flooding
- Byfleet Petition with 2500 names has been ignored, why?

Please take all comments/objections into consideration from all local residents to ensure the right decision is made at the end.

Kind regards

Zuzana Perry
