Site GB15 Land surrounding West Hall West Byfleet
Objecting
The infrastructure to support development on this site (and others in West Byfleet, Pyrford and Byfleet) is inadequate. Traffic on the A245 at present exceeds that recommended by the Highways Agency and development on this site would result in traffic volumes nearly double that recommended by the Highways Agency. Consideration should be given to the provision of a relief road bypassing West Byfleet before any development takes place. There will be huge gains in the value of green belt land identified for development and therefore any permitted development should fund a relief road. The same applies to the health and education facilities which would require expansion. At present, there is a three to four week waiting time to see a doctor at the West Byfleet Health Centre which I am sure the Council will agree is unacceptable.

Proposed modifications - Please explain what changes you consider should be made (for example, to the text, to the site boundary)

Exclude sites for development where the existing infrastructure is inadequate. Assess infrastructure first before allocating any site for development.
