**Subject:** Objection

I have just looked at the plans for byfleet 2027 and I have to ask myself have the planners gone mad ,they obviously don't live here it stinks of not in my back yard .I have lived here for 37 years and I have been flooded I also find it hard to get insurance so taking up more green belt is only going to make it worse ,also byfleet is gridlocked twice a day now so I ask the question exactly where do all your planning team live ,I bet its not byfleet I don't think for one minute you will take notice of this as you haven't with the 2500 emails you have already received but I have to say your planning so called consultants haven't got a clue .

Yours disgustingly

B pugh
