

DPD plan

Sent: 30 July 2015 10:44

To: Planning Policy

I wish to register the strongest possible objection to the proposals within the above plan for the release of Green Belt land within the Byfleet, West Byfleet and Pyrford areas.

- 1) The maintenance of our green belt should be of prime importance, acting as it does as a lung for an increasingly urbanised area.
- 2) It does not take a genius to forecast the adverse effect that will arise with regard to the traffic chaos on the A245 which already experiences gridlock on many occasions. The addition of approximately 1400 homes and a 900 pupil school beggars belief !!
- 3) The existing infrastructure of the area is already under considerable strain with regard to drainage, health etc and will only be exacerbated if these proposed developments are allowed to proceed

I sincerely hope that the opinions of the majority of local residents will be properly considered and that these proposals be rejected.
