Subject: Planning in pyrford

I would like to express my concern at the proposed planning on green belt land around upshot lane in pyrford. The village school and amenities are too small to handle the vast increase in properties that are proposed. The roads and congestion already experienced are pressed to deal with what properties are in pyrford currently, building vast amounts of new homes will be terrible for the local area.

Please keep green belt land green and do not allow any building on this land.

Yours sincerely
James. Roberts
