Subject: KEEP PYRFORD GREEN

Dear Jeni

This is our objections to the proposed developments in Pyrford and surrounding areas

For many years we lived in Bromley Kent from the days when it was a County Market town

Gradually over the years it has been drastically changed to a unorganised mess with sub standard accommodation and congestion of massive traffic problems

The standard is extremely poor and dirty and untidy and encouraging crime

Due to this and to join our family we moved to Pyrford which had such appeal as a RURAL village comparatively acceptable traffic

In the fourteen years we have lived hear the changes are becoming rapidly similar to Bromley VERY SAD and very worrying about the future

We understand the need for more houses but there are ample 'brown Sites' to develop not mass estates on green belts

There are more than enough 'shopping precincts not occupied which could be turned into housing

Why allow dentists, doctors and the like to buy houses and run their business from these premises??? Obviously a great TAX advantage?

This could release many properties to return to genuine housing and these businesses could move into the defunct shopping precincts where parking is often available freeing up the villages of traffic congestion

Mr and Mrs. Rodgers
